

## 1891 Census of Thanet Places as Enumerated, with Index

---

### Scope

The full Registration District, piece RG12/725 to piece RG12/733 inclusive.

### Arrangement

A summary of the places-related information recorded in the enumerators' returns of households, in 'as enumerated' order, including all Thanet's public houses and farm houses (although some of these are not explicitly identified in the original). Each entry includes :

- **piece** and **folio** numbers : used with the PRO class (RG12) to locate the original
- **Dwelling** : name of one or more dwellings ~ 'Rows' and 'Terraces' are usually under this heading, although some may have been considered 'streets' and their names used as street names
- **Street** : names of a street, road, etc, and some hamlets ~ 'Places' are usually under this heading, although some may have been sub-divisions of a street
- **parish** : the ecclesiastical parish, abbreviated as noted below
- **locality** : the key guide to location, used to differentiate common street names in the Index

There is a combined Index for Dwellings and Streets starting on page 56, each entry giving a **piece** and **folio** number(s).
