

## 1901 Census of Thanet Places as Enumerated, with Index

---

### Scope

The full Registration District, piece RG13/819 to piece RG13/829 inclusive.

### Arrangement

A summary of the places-related information recorded in the enumerators' returns of households, in 'as enumerated' order. Each entry includes :

- **piece** and **folio** numbers : used with the PRO class (RG12) to locate the original
- **Dwelling** : name of one or more dwellings ~ 'Rows' and 'Terraces' are usually under this heading, although some may have been considered 'streets' and their names used as street names
- **Street** : names of a street, road, etc, and some hamlets ~ 'Places' are usually under this heading, although some may have been sub-divisions of a street
- **parish** : the ecclesiastical parish, abbreviated as noted below
- **civil parish** : the civil parish (except where the ecclesiastical parish is 'hT' - see below - in which case it is given as 'Broadstairs' rather than 'St Peters')

There is a combined Index for Dwellings and Streets starting on page 75, each entry giving a **piece** and **folio** number(s).
