### Arrangement

The first part is in sections, each corresponding to an Enumeration District. The entries in each section give the place-related information for the district, arranged in columns :

- **piece & folio** : used with the class number (HO107) to identify the original source
- **Dwellings and Buildings** : names or descriptions of individual dwellings and buildings ~ also includes groups such as 'cottages' & 'almshouses'
- **Streets, Hamlets, etc** : names used for groups of dwellings & buildings ~ as well as streets and hamlets, also includes places such as 'courts', 'gardens', 'terraces', 'yards', etc
- **parish** : the ecclesiastical parish or district, abbreviated as noted below
- **location** : the town or civil parish. In some cases the information under this heading may be the only place-related data given in the original, and nothing is entered under 'Dwellings' or 'Streets'

The second part (starting on page 19) is a combined Index of Dwellings and Streets, each entry giving **piece** and **folio** number(s).
