

Farms and Farmers Thanet, Kent

Scope

Farms and their principal occupants, and Farmers living in rural dwellings, gleaned from the following sources :

- Pigot and Co's Royal National and Commercial Directory and Topography (1839)
- History, Gazetteer and Directory of the County of Kent, by Samuel Bagshaw (1847)
- The Post Office Directory of Kent (1851)
- Post Office Directory of Kent (1867)
- Kelly's Directory of Kent (1890)

Some 'non-farmers' are included to illustrate continuity of occupancy. The following sources are also used where they identify details of a farm or farmer not listed in the preceding directory :

- Census of the Thanet Registration District (1881 transcript)
- Census of the Thanet Registration District (1891 original)

Arrangement

Entries are arranged alphabetically, each headed by the name of a Farm (dwelling or rural area), and its location within Thanet. Each entry provides a brief summary of the principal occupants, giving names, occupations (if any), and the name and/or location of an associated dwelling.

- many farms were identified only in terms of their location, and some entries may prove to include two or more farms in the same area
- some farms may appear on the list more than once, under different names
- some 'farm houses' may prove to be ordinary dwellings, having never belonged to a farm or been occupied by farmers

There is an Occupants index starting at page 13.

Abbreviations & Notations
