

Thanet's Homes and Hospitals 19th and early 20th Century

Scope

Thanet's homes & hospitals and their principal occupants, gleaned from the following sources :

Arrangement

Entries are arranged alphabetically, headed by the name of the home or hospital. Each entry provides a summary of the principal occupants, giving their names, occupations and the current name of the establishment.

- some homes were not 'named', and are listed under general purpose headings
- two or more homes may be unknowingly listed under one entry; some homes may be listed under two or more entries
- some homes may appear under a name that was used only for a limited period (if they were sometimes known by a location-derived name, the Index may help to identify these)

There are indexes for Occupants and Locations starting at page 9 ~ a location is shown in the Index only if it does not appear in the entry's heading
